Copy. Will do Phil. Sag plane has gone to ground. And we are leaving the command post to go get a few hours sleep.

Hey Simon,

Thanks for the update and it seems that you and our SAG are proving beneficial. Great work & please pass on to the boys!

Stay safe,

Phil

Supt. Phil Lue

Director - National Critical Incident Program

Subject: Update from Kdiv

Jamie, we arrived here in Lethbridge at about 1500 hrs. The Sag plane was utilized by the command team here to assist with the ball for apprx 8 hours. Myself, Matt Wells and Wally are at the command center.

Handy, Matt and Randy are flying in the Sag plane. We had an incident where 2 members vehicles were pushed off of their road block by a tractor and a truck. The members were able to disengage and arrest teams moved. The suspect ran into a bar and multiple people were actively interfering with the police actions.

We have been able to live feed the ball footage into the command center and have radio comms set up too. Feedback from kdiv ert has been very favorable with respect to covering off this incident. They have not had this high quality of surveillance footage thus far. It definitely added another level of officer safety security and allowed for certain command decisions to be made. Plans for the morning are to have us up for when they execute a search warrant on a res where their 3 main targets are anticipated to be at. This will be at approx 0500. Will have more for you tomorrow about the overall plan with respect to the enforcement actions afterwards.

Any questions let me know.

Simon
